Keeping Great Taste America Loves

Nobody bakes goodness in as many ways as George Weston Bakeries. Who can resist those nooks and crannies of Thomas' English Muffins that have been pleasing America's breakfast table for over one hundred years. Now we enjoy Entenmann's Little Bites, with only 100 calories per package. George Weston creates many delicious and wholesome products for Arnold, Boboli, Brownberry, Dutch Country, Entenmann's, Freihofer's, Maier's, Stroehman and Thomas' brands. Weston facility maintenance team knows one of the most important factors in producing baked goods is using equipment free of any baked on deposits. It is important they have a cleaning contractor that can get in there at the proper time, clean large baking equipment, including the inside of very large ovens and conveyor ovens. Equally important is the ability to clean with only natural substances, such as baking soda which requires a lot of scraping and elbow grease. Americlean's crew is the solution to these requirements. Joe Biondi, Sanitation Superintendent, said "Americlean always does a great job and everything goes smoothly, this is why we continue to bring them in for our big cleaning jobs!" Americlean feels privileged to continue to work with a great company like George Weston Bakeries. Gotta love Thomas' nooks and crannies!

CHALLENGE

Cleaning baked on deposits off commercial baking equipment to ensure great tasting baked goods

SOLUTION

Americlean using only natural substances. Cleaning done right the first time, on time, every time. Period!

RESULTS

Food Manufacturing facility running at peak production, producing delicious baked goods for us all
